Ideation Phase – Empathize & Discover

Date	3 October 2026
Team ID	SWTID-2026-2050
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	

Empathy Map Canvas

User: Employee / IT Procurement User

Example:

Think & Feel

- "I need a laptop as quickly as possible."
- "Why does the laptop request take so long?"
- "I don't want to manually follow up with the IT team."
- "I want to know the status of my request."
- "I hope the correct laptop is provided."
- Concerned about delays in approval and procurement.
- Wants a simple and transparent request process.

Hear

- "You need to submit a laptop request through the Service Portal."
- "Your manager has to approve the request."
- "The IT/Hardware team will process your request."

- “You need to contact IT to know the request status.”
- “Laptop procurement may take time.”

See

- Manual laptop request forms.
- Service Catalog and Standard Laptop option.
- Approval requests.
- Request and Requested Item records.
- IT/Hardware team handling procurement tasks.
- Delays caused by manual processing and follow-ups.

Say & Do

- Submits a **Standard Laptop** request.
- Clicks **Order Now** in the Service Catalog.
- Checks the Request Number and Requested Item.
- Waits for approval.
- Contacts/follows up with IT for status.
- Checks whether the laptop request has been processed.
- Reports issues if the request is delayed.

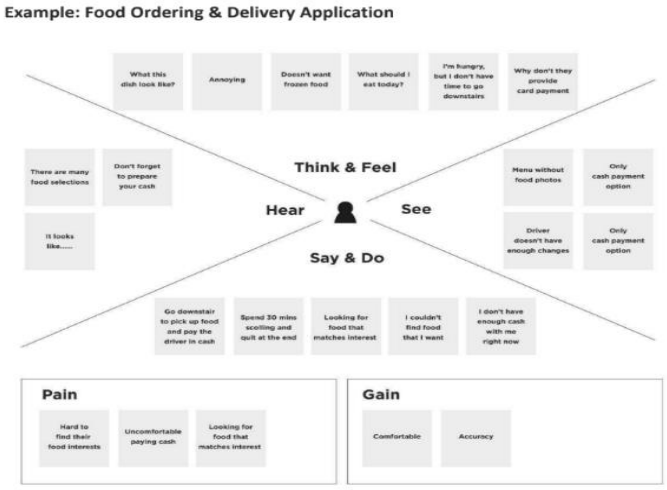

Pain

- Manual procurement process.
- Delayed approvals.
- Repeated follow-ups with the IT team.
- Lack of visibility into request status.
- Incorrect or incomplete task assignment.
- Time-consuming request processing.
- Risk of human errors during task creation and assignment.

Gain

- Faster laptop request processing.
- Automated task creation.
- Automatic assignment to the **Hardware** group.
- Reduced manual work for IT staff.

- Better request tracking and visibility.
- Consistent procurement workflow.
- Automatic approval and notification handling.
- Improved employee experience.

Project details

Field	**Content**
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Primary User	Employee requesting a laptop
Secondary User	IT/Hardware Procurement Team
Main Problem	Manual and time-consuming laptop procurement process
Proposed Solution	Automate Standard Laptop requests using ServiceNow Flow Designer
Main Benefit	Faster, consistent, and trackable laptop procurement
