**Project Design Phase-II**
**Solution Requirements (Functional & Non-functional)**

| | |
|---|---|
| Date | 3 October 2026 |
| Team ID | SWTID-2026-2050 |
| Project Name | Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer |
| Maximum Marks | 4 Marks |

**Functional Requirements:**

Following are the functional requirements of the proposed solution.

| FR No. | Functional Requirement (Epic) | Sub Requirement (Story / Sub-Task) |
|---|---|---|
| FR-1 | Standard Laptop Catalog Item | Provide a **Standard Laptop** catalog item under the ServiceNow Service Catalog. |
| FR-2 | Laptop Request Submission | Allow an employee/requester to open the Standard Laptop catalog item and submit a laptop request using **Order Now**. |
| FR-3 | Service Catalog Flow Trigger | Automatically trigger the **Standard Laptop Task** flow when a Standard Laptop catalog request is submitted. |
| FR-4 | Requested Item Processing | Use the submitted **Requested Item Record** as the input record for processing the laptop request. |
| FR-5 | Approval Processing | Process the laptop request through the configured approval stage and allow the request to proceed when the approval is **Approved**. |
| FR-6 | Catalog Task Creation | Automatically create a **Catalog Task** for the approved Standard Laptop request using Flow Designer. |
| FR-7 | Task Description Configuration | Set the Catalog Task **Short Description** to **"Laptop need to Configured"**. |
| FR-8 | Task Description Details | Set the Catalog Task **Description** to **"Laptop need to Configured"** so that the fulfillment team can identify the required activity. |
| FR-9 | Hardware Assignment | Automatically assign the generated Catalog Task to the **Hardware** assignment group. |
| FR-10 | Request and Task Tracking | Maintain the relationship between the **Request, Requested Item (RITM), and Catalog Task** so that the request can be tracked through ServiceNow. |
| FR-11 | Task Fulfillment | Allow the Hardware team to open and process the generated Catalog Task for laptop configuration/fulfillment. |
| FR-12 | Flow Activation and Association | Associate the **Standard Laptop Task** flow with the Standard Laptop catalog item so that the flow executes for the selected catalog item. |

**Non-functional Requirements:**

Following are the non-functional requirements of the proposed solution.

| FR No. | Non-Functional Requirement | Description |
|---|---|---|
| NFR-1 | **Usability** | The solution shall provide a simple Service Catalog interface through which an employee can select **Standard Laptop** and submit a request using the **Order Now** option. |
| NFR-2 | **Security** | The solution shall use ServiceNow authentication, roles, permissions, and access controls. The flow shall run with the configured **System User** execution context, while task fulfillment shall be handled by the appropriate **Hardware** group. |
| NFR-3 | **Reliability** | The workflow shall consistently trigger for Standard Laptop requests and create the required Catalog Task with the configured Requested Item, description, assignment group, and approval information. |
| NFR-4 | **Performance** | The solution shall automate the creation and assignment of the Catalog Task without requiring manual task creation for each laptop request. Performance shall be verified by testing flow execution, task creation, and processing of multiple requests. |
| NFR-5 | **Availability** | The solution shall operate through the ServiceNow cloud platform and remain available for authorized users to submit and track Standard Laptop requests, subject to ServiceNow platform availability. |
| NFR-6 | **Scalability** | The solution shall support processing multiple Standard Laptop requests using the same standardized Flow Designer automation instead of requiring a separate manual process for each request. |
